

CAT 404 – Software Engineering

1.2 Rubric – Analysis & Design Presentation (10%)

Criteria	Weight	Excellent A/A-	Good B+/B/B-	Fair C+/C/C-	Poor Minimal or No Control D+/D/D-/F
PLO 4 - Present the project deliverables clearly and with full confidence. (CLO3)					
Subject Knowledge	20%	1. The student has presented full knowledge of both problem and proposed solution. 2. The student excellently answers the questions supported with rational explanations.	1. The student has shown fairly competent knowledge of both problem and solution 2. Student can answer questions but without rationalization and explanation.	1. The student has shown minimal knowledge of both problem and solution. 2. The student seems novice and can answer basic questions only.	1. The student has no or very few knowledge of both problem and solution. 2. The student cannot answer questions.
Confident Delivery of Ideas	20%	Excellent delivery of ideas with great confidence.	Fairly confident in the delivery of ideas and requiring minor improvements.	Weakly deliver ideas with limited confidence.	Very poor delivery of ideas with great confidence
Clear Delivery of original idea related SE method/process/approach	30%	Excellent presentation of the proposed system/solution using SE method/process/approach.	Fairly clear presentation of the proposed system/solution using SE components with correct approach	Weak presentation of the proposed system/solution using SE components with correct approach	Very poor presentation of the proposed system/solution using SE components with correct approach
Organization of presentation	20%	The content of the presentation is perfectly organized in a structured way with a logical flow between the parts	The content of the presentation is fairly well organized in a in a structured way but the logical flow between parts requires minor improvement	Content of the presentation is weakly organized in and, it is difficult to follow the presentation.	Content of presentation is arranged in confused and unstructured way
Completeness & Accuracy	10%	Complete and accurate description of important outcomes.	Fairly complete and accurate description of important outcomes that requires minor improvements	Partially complete and partially accurate description of important outcomes that requires major improvements	Incomplete and inaccurate description of important outcomes
